**(54) MAKEUP COMPOSITION AND PRODUCT FOR LIP
BASED ON FILM-FORMING POLYMER**

(57) Abstract:

PROBLEM TO BE SOLVED: To obtain a composition capable of providing films, enabling the formation of the glossy films on lips, on the other hand, causing no transferring of a color without fouling a substrate brought into contact therewith and without migrating

with time and having excellent holding characteristics.

SOLUTION: This commercially viable makeup composition for lips contains a sufficient amount of a polymeric system containing at least a dispersion of particles of a film-forming polymer. The system is capable of forming films capable of following to the movement of the lips.
